

Pillar 3 Report 2016

## Table of contents

General information	3
Remuneration policy	3
Risk strategy	4
Transitional own funds	5
Leverage ratio	11
Capital instruments' main features	14

#### General information

The information on capital adequacy and risk management, disclosed in current document and Annual Report 2016 of AS Eesti Krediidipank Group, has been compiled in accordance with the Capital Requirements Directive 2013/36/EL (CRD IV) and the Capital Requirements Regulation (EU) No 575/2013 (CRR).

The Annual Report 2016 of AS Eesti Krediidipank Group (published on bank's homepage www.krediidipank.ee) provides information on risk profile, amount and composition of capital requirements and of the own funds of the consolidation group, which form the basis for the calculation of the capital adequacy ratio. The consolidation group includes AS Eesti Krediidipank and its subsidiaries AS Krediidipank Finants (51%), Krediidipanga Liisingu AS (100%) and AS Martinoza (100%).

The description of Group's risk management principles is published in the Annual Report 2016 as Note 2 "Risk management" and in chapter "Risk strategy" of current document. Remuneration policy is presented in the Management Report chapter "Remuneration policy" of Annual Report 2016 and information about compensations paid to the Management is available in Note 36 "Related parties" of the report.

In addition to the aforementioned information we publish forms of disclosed information, which are laid down in implementing regulations (EU) No 1423/2013 and (EU) No 2016/200 of the regulation (EU) No 575/2013.

#### Remuneration policy

Krediidipank Group applies a single remuneration policy that has been approved by the Supervisory Board of the bank and the effectiveness, adherence to objectives and implementation of the policy is supervised by the Remuneration Committee.

The task of the Remuneration Committee is to assess:

- implementation of the principles of remuneration policy, approved by bank's Supervisory Board, and their consistency with bank's operational objectives;
- the effect of remuneration-related decisions on fulfilling the requirements set on bank's risk management, own funds and liquidity.

The Remuneration Committee supervises control over remuneration of Management Board members and employees, subject to the supervision of Remuneration Committee, at least once a year assesses implementation of remuneration principles and, if necessary, makes a proposal for updating the remuneration principles. One Renumeration Committee meeting was held in 2016.

According to the principles applied in 2016, the employees became entitled to performance fee based on the Group's profitability, as the average ROE of the Group exceeded 5%. Performance pay will be paid after the auditing of Annual Report 2016. Performance pay encourages efficient risk management and does not incentivise excessive risk-taking.

Those employees are eligible for performance pay, who have contributed to achieving the results, followed risk management principles, goal and values of the Group and continue to be employed by the Group. Performance pay is payable in cash. Management and key personnel are paid by instalments during 3 years if the accounted amount of pay exceeds 10 thousand euros. There were no such persons among performance fees, accounted for the year 2016. Shares and options are not determined as forms of performance pay.

## Risk strategy

Risk strategy of the group acts in accordance with operational strategy, approved by Supervisory Board, and it is reviewed in the course of approving strategic plan of the Group. Significant risks, arising from group's operations, are following:

- credit risk (incl. concentration risk, guarantee risk, counterparty risk);
- liquidity risk;
- market risks (interest risk, currency risk, real estate risk);
- operational risk (incl. compliance risk);
- interest risk of banking portfolio;
- strategic risk;
- reputation irisk.

In Q1 2017 a new strategy for the Group was formulated, the focus is on increasing business volumes. Consequently, Group's risk appetite in the categories of credit, market and strategic risk is medium, and low in categories of operational, liquidity, reputation and real estate risk.

	Group's risk appetite	Credit risk	Market risk	Liquidity risk	Operational risk
	by main risk categories	Medium	Medium	Low	Low
~	Avoidance				
of risk	Limiting	Х	Х	Х	Х
	Hedging		Х		
Techniques	Separation	Х	Х	Х	
echi	Reduction	Х			Х
Ĭ	Insurance				Х

The Group has implemented regular risk reporting to the Management on all significant risks, including level of risks, trend, results of stress testing, capital requirements, etc. In case of large-scale materialisation of risks or significant departure from general risk management principles the Management and Supervisory Board of the bank is informed immediately.

The Group uses risk-based capital planning, ensuring that all risks were adequately covered with own funds at any time. Capital planning is done based on balance and profit forecasts, considering group strategy, future expectations, as well as risk profile and appetite.

Credit risk occupies the biggest share in group's risk profile. According to recommended risk profile, the share of credir risk is 75-85% of all capital requirements, the share of market risk is up to 5% on group's internal capital requirements. The existing capital buffer is sufficient for permanent coverage of all risks, taken for fulfilling group's strategic goals.

### Transitional own funds

Disclosure according to Article 5 in EU Regulation No 1423/2013

Columns of the own funds disclosure form as set in Annex VI of the inmplementing regulation (EU) No 1423/2013 and disclosure on the form of AS Eesti Krediidipank Group:

- (A) amount, according to the CRR regulation (EU) No 575/2013
- (B) reference to the article of Regulation (EU) No 575/2013 not presented. Applied as laid down in Annex VI of EU Regulation No 1423/2013.
- (C) amounts subject to the approach, applicable prior the regulation (EU) No 575/2013 or residual amounts, provided in regulation (EU) No 575/2013 AS Eesti Krediidipank Group has no amounts subject to the mentioned regulation, i.e. the sums to be disclosed in column C are not relevant for the Group.

#### Table LRQua: disclosure on qualitative items

1 Description of processes, used for management of the risk of excessive leverage:

In management of Eesti Krediidipank relies on the requirements, provided in Article 822 of Estonian Credit Institutions Act. For the purpose of evaluation and control of excessive leverage risk, the means and risk control structure have been established in Eesti Krediidipank Group in accordance with legislative regulations and risk profile. The Group monitors quantitative dynamics of leverage risk, using the leverage indicator provided in regulation (EU) No 575/2013. For the purpose of excessive leverage risk management, the Management Board of the bank and ALCO - working body formed by the Management Board – monitor the leverage ratio, analyse changes in balance sheet structure and forecasts and, if the necessity emerges, establish action plan for response to the changes in leverage ratio. By preparing the strategy, the principle of sustainable fulfilment of leverage ratio standard is being followed.

2 Description of factors that influence the leverage ratio during the reporting period:

In accordance with Article 1 of the delegated regulation (EU) No 2015/62 the Group's leverage ratio 2016 was 8.9%, calculated as at the end of reporting period, and 8.4% in the reference year, under 2015 regulation calculated as a simple arithmetic mean of monthly leverage ratios during one quarter. The leverage ratio has increased by 0.5% but remained within the same range as in 2015. According to predicted financial forecasts, the leverage ratio increased due to decreased deposit volume, however, as the capital indicator of the ratio decreased at the same time due to additional deductions, the leverage ratio resulted similar to the 2015 level (see table on page 17 in the Annual Report 2016 of AS Eesti Krediidipank Group).

## Main features of capital instruments included in own funds

Disclosure according to Article 3 in EU Regulation No 1423/2013
